

Cetina River Rafting

...jungle like vegetation along the clear and green river...

The rapids of this river are relatively easy and the scenery is breathtaking – waterfalls and caves, deep canyon and jungle like vegetation along the clear and green river. The warm Mediterranean climate meets mountain canyons and rivers here to create a setting for a fairy tale. The rafting trip ends in Radmanove Mlinice, nowadays an open air restaurant situated around a beautiful old water mill where we relax and enjoy the traditional Croatia cuisine.

No previous rafting experience is needed if you can swim. Even children from 6 years old accompanied by parents can participate. We use professional Sotar rafting boats for max 8 persons, with one trained guide in each boat. You will get a helmet, a life jacket, a paddle and one waterproof container per boat for personal items (camera, drinks, etc.). Shorts or bathing suit, T-shirt and sandals (or sport shoes) is all you need to wear on the river. In case of colder weather bring a long-sleeved shirt. Don't forget your towel, sun cream and water.

In the unlikely case of extreme weather conditions Raftrek Adventure Travel will re-schedule the activity for a day or two prior or after the date booked, if possible. If the change is not possible, the payments will be refunded in full.

TRIP INFO

Location:

Omiš, south Dalmatia

Season:

June to September

Duration:

2/3 hours

Difficulty:

Moderate

Activities:

Rafting, swimming, walking

Price:

250 Kn per person
