

National Park Krka Cycling

...learn about Croatian history, breathe in the past while cycling around the National Park...

There is hardly a better way to get around the area of the National Park Krka River than cycling. This biking route will lead you thru Croatian history enjoying the landscape of forests and hills, monuments and bird reserves. We will bike to the shores of Visovac Lake where the boat will take us to Visovac Island and Franciscan monastery. After sightseeing the monastery and museum the boat will take us back to the shore to continue our biking tour towards one of the most famous wineries in Croatia.

We will meet the warm and friendly family and stop for a short wine tasting. Continuing back to Skradin we have a magnificent ride downhill with a scenic view over the Adriatic Sea.

Cycling experience is needed. Even children from 12 years old accompanied by parents can participate. We use professional bicycles TREK with one trained guide in each group. You will get a helmet, bicycle and a map. Extra gear and tools is provided. Shorts or bathing suit, T-shirt and sport shoes is all you need to wear. Don't forget your sun cream, water and picnic.

In the unlikely case of extreme weather conditions Raftrek will re-schedule the activity for a day or two prior or after the date booked, if possible. If the change is not possible, the payments will be refunded in full.

TRIP INFO
